

CLOUD HOSTED SERVER SOLUTIONS

Move your business into the cloud and work from anywhere, anytime by hosting your Sage Evolution 200, Sage Pastel Partner, Sage Pastel Payroll or VIP Premier Payroll.

CLOUD HOSTED SOLUTION

Our Cloud Hosted Business Solution gives you access to South Africa's most innovative enterprise software solutions, hosted on cloud servers that use the very best in virtual technology, hardware and software.

For a monthly fee, you can manage your entire business operation in the cloud, using a combination of Paradigm Software, Sage Evolution 200, Sage Pastel Partner, Sage Pastel Payroll or VIP Premier Payroll.

HOSTED SERVER MANAGEMENT

Access to innovative business software applications, hosted on a state of the art server, at a fraction of the cost of traditional on-site servers. This provides your teams with a flexible solution to access your enterprise software, easily connecting to the server from any device using remote access technology.

Monthly server management services include:

SOFTWARE MAINTENANCE

Includes installations and upgrades of all operating system software.

MANAGED HARDWARE

Server performance monitored by the Paradigm team and at the data centres.

REMOTE ACCESS

We'll manage the security permissions and remote access for all of your users.

SPEED AND SCALABILITY

Hardware that will grow with your business. Request more processing power, extra RAM or storage.

DATABASE BACKUPS

We manage a subscription on your behalf for off-site backups of your critical data.

RELIABLE INFRASTRUCTURE

Data centres offer facilities with high level access control, power outage and fire prevention.

DISASTER RECOVERY

Disaster Recovery plan, with full system backups, restore, failover and recovery.

NO SETUP COSTS

Free server setup, installation of your Sage software and migration of your data to get you started.

LOCALLY HOSTED

All of our servers are hosted in world-class South African data centres.

NO LONG TERM CONTRACTS

We won't lock you into any long term agreement. Your hosted server subscription is month-to-month.
